ATCUALITY
Building the future & businesses, one byte at a time.

WHY AI-NATIVE ARCHITECTURE CHANGES EVERYTHING

THE PROBLEM WE SOLVE

Generic Chatbots
Can't answer company-specific questions accurately

Escalating Costs
Per-query API fees that grow without limit

Knowledge Silos
Expertise trapped in documents nobody reads

Data Exposure
Sensitive info sent to external cloud servers
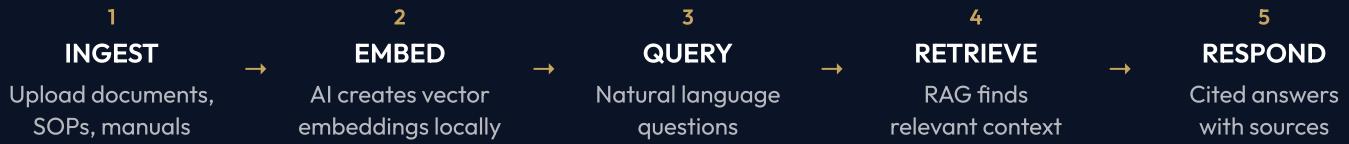

THE LEGACY PROBLEM VS. THE AI-NATIVE DIFFERENCE

Bolt-On AI (The Old Way)

- Chatbot layer on top of static systems
- Reactive—waits for prompts
- Generic responses, no organizational context
- Data sent to external servers
- Per-query costs that scale endlessly
- Vendor lock-in, no portability

AI-Native (The ATCUALITY Way)

- Intelligence embedded in operations
- Proactive—anticipates needs
- Grounded in your documents, your context
- Runs entirely on your infrastructure
- Fixed cost, unlimited usage
- You own the model, full portability

HOW IT WORKS: RAG + MCP PIPELINE

1 INGEST
Upload documents, SOPs, manuals

→

2 EMBED
AI creates vector embeddings locally

→

3 QUERY
Natural language questions

→

4 RETRIEVE
RAG finds relevant context

→

5 RESPOND
Cited answers with sources

We deployed ATCUALITY's RAG solution across our 5 manufacturing units. Support queries dropped 73% in the first month. The ROI was visible within 6 weeks.

— Enterprise Manufacturing Client, 2025

73%
QUERY REDUCTION

6 wks
TIME TO ROI

Data Sovereignty
Your data never leaves your servers. Air-gapped deployments available for sensitive environments. DPDP Act compliant.

On-Premise First
Built for local deployment from day one—not cloud-first with an on-prem afterthought. Works offline.

India-Built
Designed for Indian enterprises, government bodies, and regulatory requirements. Hindi-first AI support.

ATCUALITY
Building the future & businesses, one byte at a time.

AI-NATIVE PRODUCTS FOR YOUR INFRASTRUCTURE

OUR SOLUTIONS

Six Products. One Philosophy. Zero Cloud Dependency.

ATC Manthan
EXPO HIGHLIGHT

Churn Knowledge. Extract Wisdom.

Upload any document—Manthan extracts Q&A, study guides, FAQs, summaries, and audio overviews. NotebookLM-style intelligence, 100% on-premise.

Zero hallucination | Source citations | Hindi + English

ATCquest LMS

AI-Native Learning Management

LMS where AI is the operating system. Auto-generates courses from documents, adapts learning paths, surfaces completion risks before they happen.

70% faster content | Predictive analytics

AI Campus

Complete AI Infrastructure for Schools

204 curriculum modules across 4 age groups, interactive games, and teacher training. NEP 2020 aligned. All running locally on NVIDIA GPUs.

K-12 ready | No internet needed

MCP-Based Pipelines

Automated Intelligence Workflows

Model Context Protocol for continuous data processing. Local LLM drafting with optional Claude refinement. 60-70% cost reduction vs pure API.

Scrape + Process | Daily freshness

AI Agents

24/7 Operations That Understand Context

Not FAQ bots—agents embedded in your business logic. Handle 1000+ simultaneous queries. WhatsApp, Telegram, Web, Voice.

95% resolution | Multi-channel

Workflow Automation

AI-Driven Process Intelligence

Eliminate repetitive work with AI decision-making built in. 500+ integrations. Surfaces bottlenecks before they cascade.

20+ hrs/week saved | 95% error reduction

See It Running Live at Booth 135
Bring your PDF. Watch Manthan churn it in 60 seconds. No internet required—entirely offline demo.

BOOK DEMO SLOT →

REAL-WORLD DEPLOYMENTS

Customer Support
Answer queries from your knowledge base

Internal Helpdesk
HR, IT, facilities—instant answers

Knowledge Mgmt
Turn docs into searchable intelligence

Patient Support
Medical FAQs, HIPAA compliant

Citizen Services
Scheme info, multilingual queries

POWERED BY ENTERPRISE-GRADE TECHNOLOGY

NVIDIA GPUs | Qdrant Vector DB | vLLM Inference | MCP Protocol | Air-Gap Ready

INDUSTRIES WE SERVE

Government | Education | Healthcare | Manufacturing | Finance

ATCUALITY

WHY ON-PREMISE MATTERS FOR YOUR BUSINESS

Data Never Leaves
Customer conversations stay on YOUR servers

No Training Leakage
Your data doesn't train external models

Lower Latency
Local inference = faster responses

Predictable Costs
One-time investment, no per-query fees

DPIIT Recognized Startup   **NVIDIA** Inception Partner   **DPDP** Act Compliant   **204** Proprietary Modules
