## WHY MANTHAN VS CLOUD AI

### Cloud AI Tools (ChatGPT, Gemini, etc.)

- × Your documents uploaded to external servers
- × Data may be used to train their models
- × Per-query costs that scale endlessly
- × Requires constant internet connection
- × No control over model or infrastructure
- × Compliance risks for regulated industries

### ATC Manthan (On-Premise)

- ✓ Data never leaves your servers
- ✓ Your documents train only your instance
- ✓ Fixed cost, unlimited usage
- ✓ Works completely offline
- ✓ You own the deployment, full control
- ✓ DPDP Act compliant by architecture
